Light My Fire

This month Natasha Higgins gives you some ideas for how to jazz up your interior with some super-stylish lights and table lamps.

Lighting creates atmosphere. The way a room is lit using the right lamps, lights and colours will easily transform your living space from the ordinary into the extraordinary. However, choosing a Phillippe Starck suspension lamp over an Austrian crystal chandelier or a trio of animal inspired table lamps over a classic retro Verner Panton 1960s statement light can be a difficult task. Whatever you go for, remember to keep the following in mind: Forget the boring old ceiling spots — stylish designs can turn a bland room into a grand room. Try mixing funky new pieces with Victorian architecture or use iconic timeless design classics to add that retro feel to a modern room. Finally, remember that lighting is the easiest way to change the look of a room.

These are exciting times in lighting, with innovative new designs, classic pieces and the 60s retro look that is never out of style!
